#### Description

## Environment

Testing (Development)

Version 0.0.2

## Description

When logging into the application with the change of one uppercase letter to a lowercase letter in Password, the login passed correctly

- correct Password: **bApuhAd**
- amended Password: **bApuhad**

## List of steps for reproduction:

1. Go to: <https://demo.guru99.com/v4/>
2. We enter in the field: UserID "mngr484054" and in the Password field "bApuhad" and click the "LOGIN" button.

## Actual result:

The user was logged in correctly

## Expected behavior:

Login should not be possible. A message should appear: "User or password is not valid".
